Summary

I am a **Front-End Developer** with 3 years experience building & designing web apps.

Skills

React

Next.js

Node.js

Typescript

Git

SASS

Tailwind

JavaScript

Python

PostgreSQL

Prisma

Figma

Sketch

Photoshop

Pixelmator

Experience

Web Developer

WeJam, 2022 - present

Maintained and improved the React and node.js codebases of the WeJam immersive band experience. Overhauled the UI design, improved user journeys, created new screens such as Leaderboard to add to the experience. Solved connectivity and server-messaging issues.

Freelance Web and UX Designer

2022 - present

Created UX project for a sports booking app, for mobile and web.

Designed and implemented landing sites for various clients. I used Figma, Squarespace, Wix.

Trainee Developer

WeJam, 2022

Cut my teeth automating stages of the song production using Python and Lillypond (a music engraving language). Learnt React from a mid-level developer through pair-programming.

Song Production Assistant

WeJam, 2021

Prepared song scores to be processed and added to the experience. I did my first UX project for the Stats screen.

Projects

Kronos

2023 - 2024

Built a smart organiser app in Next.js with Typescript and Tailwind CSS, postgresQL database, and Prisma as ORM.

Learnt to separate client from server components. Learnt to manage state using Redux and callback functions. Learnt to handle local and UTC dates. Used third-party libraries for calendar and timer UI. Set up local database in Docker. Used Server Actions to fetch data and query the database.

Wolfpack

2023

Created responsive landing page for Wolfy's Bar NFTs using HTML, CSS and JavaScript. Designed project in Figma. Working with more basic web languages clarified the hurdles that libraries such as React overcome.

Education

freeCodeCamp

HTML • CSS • JavaScript • React

CodeCademy

Node.js • Redux • React • JavaScript • Python

LoveCircular

UX Design • Figma

Computer Science College

95% Qgrade in the Romanian Baccalaureate

Finished top-tier college, Andrei Saguna in top 30% of class. Learnt math algorithms in C++, HTML, CSS and JavaScript.

Qualified for the national Information Technology Olympiad.
